Though I know you are asleep  
I whisper to your ear  
Words that would make you feel  
Like the night when we first kissed  
Tracing shadows around your lips  
I thought I felt a smile  
...Or can you hear me say  
That I'm in love with you?  
You don't have to, you don't need to  
Tend to me when I feel ill  
Make me tea, bring me a blankie  
Or give me headache pills  
You don't have to but you still do  
Wait for me until I get home  
Say you missed me, hug and kiss me  
Say you thought of me all day  
You don't have to, you don't need to  
Say you love me every way  
At the red lights kiss my day bright  
Take all my stress away  
When the day falls into night  
In one another's arms  
Is when I start to dream  
Of all those little things  
You do out of the blue  
You do to make me smile  
All of those little things you do  
Is why I'm so in love with you  
I don't have to, I don't need to  
Open doors to let you in  
Bring you something when you need it  
Just to make that sweet face grin  
I don't have to, but I still do  
Try my best to make you blush  
Sneeze, I bless you; Hurt, caress you  
Give you a raspberry  
I don't have to, I don't need to  
Say I love you 10 times a day  
Rub your neck when you are driving  
Or with your hair I'll play  
When the day falls into night  
In one another's arms

Is when you start to dream  
Of all those little things  
I do out of the blue  
I do to make you smile  
All of those little things I do  
Is why you love like you do
