"I'd Trade It All"

I could never be
Close to Your heart
If I was a friend of the world
And Jesus,
I think that You know
I want to love You
So much more
So take me to
The depths of Your love
I'm so tired of running
To a world that means nothing

I'd trade it all to know You
I'd give it all here and now
I'd trade it all to be near You
Whatever the cost,
Whatever the cost
I'd trade it all

There's never been
A passion before
Like the one You've
Placed in my heart
And I long to be
Here where You are

Lord, You know I'm willing
To leave it all behind
Because You're all that matters
In my life, in my life
