We made a bond from the very begin  
I found my homie and my best friend  
Imma be there for ya till the very end,  
No matter what, no matter what, no matter what, yeah  
We broke the rules, we took it further than  
We made a promise to each other we aint gonna never  
end  
She gone be there for the kid, no matter what  
No matter what, no matter what, yeah

We met through a mutual friend  
We started clubbing, drinking, talking, laughing and  
grinning  
You had your eyes on me the whole time,  
I could see it through my lens  
Your face, your shape and the lil things about ya had to  
get all in  
Anytime we spend time we spend more than we spend  
benjamins  
What the fuck this high siddity girl want to do wit a  
astronaut kid  
I'm asking myself questions, I had to understand  
You got to live and learn to make mistakes to be the  
man  
We didn't mean for it to get this serious  
I got another nigga bitch with me  
And I'm falling for her, yeah I'm falling for her  
We ain't got no strings attached  
I want her more and more  
We totalled cuffed

We made a bond from the very begin  
I found my homie and my best friend  
Imma be there for ya till the very end,  
No matter what, no matter what, no matter what, yeah  
We broke the rules, we took it further than  
We made a promise to each other we aint gonna never  
end  
She gone be there for the kid, no matter what  
No matter what, no matter what, yeah

We can talk about whatever, we can fuck where ever  
It's like we're walking on rose petals  
When we're together  
I see you jocking me, and I'm jocking you harder  
You got everything a woman want I still want to spoil  
you  
And your loyalty to him aint my concern cause you're  
loyal  
It's like we been cast with a spell or both ate some  
poison  
Tell him I aint mean enter with his main thing  
You my main fling, I took his main stream  
Everyday now she sharing her main dreams  
And damn will never come between,  
And we ain't mean for it to be this serious  
I made a promise to you I'ma take it serious  
Cause I know my words mean the most to you  
And you mean the most to me  
We got a special connection, can't nobody come  
between

We made a bond from the very begin  
I found my homie and my best friend  
Imma be there for ya till the very end,  
No matter what, no matter what, no matter what, yeah  
We broke the rules, we took it further in  
We made a promise to each other we aint gonna never  
end  
She gone be there for the kid, no matter what  
No matter what, no matter what, yeah
