We've known each other for a long time
Though you had me from from the first
I told you all my secrets,
I wish I had 'em back now, had teh back now
But what's a man to do?
(What's a man to do)
When a man can't be true
(Can't be true)

And I can't hold you up anymore
(I can't hold you up)
Just like you I know you, everywhere
And I can't build you up anymore
(I can't build you up)
Cause when I do, you left me dry
And then you come, and then it reach you up
That's how it is everytime we touch
Touch you right
Baby you stole my heart, I need it back now
I need it back now

What's a man to do
(What's a man to do?)
If a man can't be true
(If a man can't be true)
You tell me what's a man to do?
You gotta give it back now
Give it back now
Oh-oh-oh-oh
And then you should come
And then you show up
Oh-oh-oh-oh

That's how it is everytime we touch
Touch you right
I just want you back
Baby you stole my heart, I need it back now
I need it back now
Hey!
