Last night I had a dream
Your soft lips I could feel
Sweet cherry lips like cream

I awoke and it was not real
Where is the real you?
I could not feel you
You were not there
And I'm just kissing air...

I'm just kissing air...

Kissing air...

See you across the room
Through the small ____
If I don't feel you soon
Your touch, your smile I miss it
Pretend your friend is the air that I'm kissing...

Kissing air...
Just kissing air...
Just kissing air...
Kissing air...
Kissing air...
Kissing air...
Kissing air...

I brush past, you stare into my soul
One more night to make me feel whole
Every ash of my body wanting your touch

A mile through the air

I want you so much
I want you so much
Come out from the dark and touch me there

How long must I go on kissing air?

Kissing air!!!
Kissing air!!!

Kissing air!!!
Kissing air!!!
