"Make you believe"

Visit "[Make you believe](#)" on MotoLyrics.com

We aint got nothing to fear
We aint got nothing to hide
I wanna live in the truth
I wanna live in the light
All this material excess
Is just our fear covered up
There's no such thing as success
Unless your living in love

Love's the solution all they got is problems
Global prostitution modern city gotham
Drugs and pollution god's kin forgotten
Nows the revolution stand act stop watching

Come out of your mind go leave it behind
There never gonna catch us running home
Their love is a lie world's dead I'm not blind
We gotta stand up and make our own

They taught us why we were wrong
I always knew we were right
Don't ever need to belong
Long as I'm free in my mind
Keep it straight up and strong
No fear come close your eyes

Love's the solution all they got is problems
Global prostitution modern city gotham
Drugs and pollution god's kin forgotten
Now's the revolution stand act stop watching

Come out of your mind go leave it behind
There never gonna catch us running home
Their love is a lie world's dead I'm not blind
We gotta stand up and make our own
Gonna make you believe
One blood that we bleed
Believe
