

Future Of Forestry "Renovation"

Visit "[Renovation](#)" on MotoLyrics.com

Something keeps you this night
Deep within the inside
Burning from the first light, you know
Won't escape this moment
Your renovation's coming
Now here the change will happen, you know
Come on now
This is what you're dreaming of

And you feel it coming, you feel it coming
Your heart starts beating, your heart starts beating
You feel it coming, you feel it coming
Your soul stirs, your soul stirs

This world takes advantage of us
It steals instead of loves us
Until it makes us nauseous, you know
But you won't play like they do
The twisted waves won't fake you
And emptiness won't break you, you know
Come on now
This is what you're dreaming of

You won't be needing all your drugs tonight
The rage that's moving you will make your soul to rise
