"Just For You"

Visit "[Just For You](#)" on MotoLyrics.com

I want to live and I want to love
Knowing what I'm fighting for
Life is just a summer breeze
So make your choice stand next to me
And open your eyes
Then you'll see that I can fulfill the wishes in your life
Can make your dreams come true
We'll build a castle upon the mountain high
And I'll do it just for you
Just for you

Now don't be scared to make this choice
You know I will be good to you
So let your natural feelings go
And I'm satisfying all your needs
So open your eyes
You will see that I can fulfill the wishes in your life
Can make your dreams come true
We'll build a castle upon the mountain high
And I'll do it just for you
Just for you

Now every man must fight this war
None of them can do it alone
Each of them will need someone
So stand by me and you will see that I
Can fulfill the wishes in your life
Can make your dreams come true
We'll build a castle upon the mountain high
And I'll do it just for you
Just for you
