Everything was ready but he had to run away  
Shot for the money on the very same day  
Le garage, le garage-rage  
Le garage, le garage-rage

Everything was ready but he had to run away  
Shot for the money on the very same day  
Le garage, le garage-rage  
Le garage, le garage-rage

Bullshit, bullshit, bullshit, bullshit

You, you are the thing  
With you tight skin, making me jealous??  
And i agree, i never think now when im with you

And i wont say a word of its true if it's not true  
Le garage, le garage-rage

And things pushed in my face  
With locked arms, making me nuder to everything  
You you give me sound?? ,i always think now when im  
with you

And i wont say a word of its true if it's not true  
Le garage, le garage-rage  
And i wont say a word of its true if it's not true  
Le garage, le garage-rage
