Triangles  
Straight lines  
Tiny circles  
on the circuit line  
We lack  
One of the vital pieces  
Make use of the power it releases

The connector  
Roar!  
The connector  
Roar!

(We bounce) We bounce around the circuit board  
(We dance) We dance around with electricity  
And whenever we get bored  
We turn up the connectivity

The connector  
Roar!

Voltage is the currency (Voltage is the currency)  
We spend magnetic money  
We know that we can't run out  
We're happy now, but we can't get out

The connector  
Roar!  
The connector  
Roar!

(We bounce) We bounce around the circuit board  
(We dance) We dance around with electricity  
Whenever we get bored  
We turn up the connectivity

The connector  
Roar!  
The connector  
Roar!

Roar!

Triangles

The connector  
Roar!  
The connector  
Roar!

It's my memory of the times before  
We washed up on the electric shore  
Our world is a circuit board  
Our hero is The Connector.  
Connector

The connector  
Roar!  
The connector  
Roar!  
The connector  
Roar!  
The connector  
Roar!  
The connector  
The connector  
Roar!  
The connector  
The connector  
Roar!
