Closer than you ever knew
On and on and on and on
Closer than you ever wanted
On and on and on and on

Closer than you've ever been
On and on and on and on
Closer than you ever needed
On and on and on and on and on and on

Kiss to you my lovely friend
On and on and on and on
Thanks to you I never trusted
Yeah, yeah

Hits to you my enemies
On and on and on and on
Thanks to you is everlasting
On and on and on and on and on and on

This feels just like it's yesterday
I was never aware, I was never awake
This feels just like it's meant to be
With another you and another me

Seems to me our time has come

On and on and on and on
Left behind to waste away
Yeah, yeah

Seems to me it's taking us down
It's taking us down, it's taking us down
Seems to be the price to pay
On and on and on and on and on and on

This feels just like it's yesterday
I was never aware, I was never awake
This feels just like it's meant to be
With another you and another me

You're own too much about yourself

I said you know too much about yourself

This feels just like it's yesterday
I was never aware, I was never awake
This feels just like it's meant to be
With another you and another me
