Looking back, inside my hell
At all the things, I knew so well
And in my mind I feel the tears
The times I had, through all the years

Somebody, save me from
From myself, I need help
Somebody, save me from
From myself, I need help

Innocence, that grew to pain
All those days that turned to rain
I'm looking back, inside my hell

Somebody, save me from
From myself, I need help
Somebody, save me from
From myself, I need help

Someone save me, someone save me
Someone save me, someone save me

Inside myself, resides the ghost
Of dreams I save that matter most
Inside my mind, a house of clouds

Somebody, save me from
From myself, I need help
Somebody, save me from
From myself, I need help

Someone save me, someone save me

Inside empty hush
My fear and love lie crushed
I feel those hurting ways
From my yesterdays

Looking back, inside my hell
All the things, I knew so well
Inside myself, resides the ghost

Somebody, save me from
From myself, I need help
Somebody, save me from
From myself, I need help
