

G-Spott "Sadness"

Visit "[Sadness](#)" on MotoLyrics.com

You know
That sadness is when you're all alone
It's tragic y'gotta start over
But don't you think there is no cure at all

I know
Your sadness has got you all alone
You had it but then you let it go
But don't you think there is no hope at all

Girl, living in your lonesome world
You're thinking
If you let yourself go out there
You'll be too scared

But girl, soon you'll be out of time
No second change
Get things right out there
Better make up your mind

Boy, you're moving in way too fast
You got to try
To make it last somehow
Better relax

Boy, you thought it all was a dream
Love is never what it seems
Oh, boy
You better believe
