[Kool G Rap]

G Rap with my nigga G-Dep
We about to do it Gorilla style, u heard
It's a Igloo-Badboy collabo thing u know
Y'all niggaz ain't ready for it
Coming rambo style nigga
2 guns up
Y'all niggaz better duck down
I'll get your cap lifted off
Thats how we doing it for the new millennium u heard

[G Dep]

Regardless of the wait i'm gonna stay straight ghetto
Everybody high, don't nobody say hello
Even when the sunshining it ain't yellow
Get out of the borough
If u know it ain't thorough
Niggas play ball, AWOL, on the furlow
Still came down on the furl and pumped hero
Red and grey Macs
Keep it clean as Ajax
Ghettos sling cracks
While u niggas pay tax
Now how ghetto is this
u can catch me in your hallway taking a piss
One hand on my dick one hand on a spliff
Burnt lips from the roach clip, yellow tips
If we aint closed it I get ferocious
Know this whole shit will leave me in them roaches
In your car motion I cause commotion
And i probably need some lotion
But i don't get fucked

[CHORUS]

[G Dep (sung)]

I am
(a ghetto nigga)
A ghetto nigga you can tell in a talk
On the corner selling the snort

It's hell in New York
Won't stop for a minute cops telling you hawk
Fake guards telling you pork
Settle for shorts
Running from court
New ports, criminal thoughts
On the blocks bodies acourt
Nobody supports

[Rakim]

It's a ghetto nigga thorough niggas that get cake
Five boroughs of niggaz do his ? a ? flip weight
Change garments to trick Jake, u dis jake
I want it yo I got warrants in six states

They come in a stolen whip with switched plates
Stickers hate I never leave a bread to trace
Only evidence I leave is hickies on chicks' face
In the corner with the crooked niggas
But yo shit's straight
We start war to leave with these seven revolvers
Sell case never test the floor
Sticky yank slicking enough y'all
I'm a man enough to put on a dress
To creep up like grand-moma and bust y'all
Get close enough to part your vest and tux off
Who would have thought the lady with the car would
crush y'all
Too smart to get caught
But I got fam up north
So if they put me in coughs
I'll call fuck y'all

[CHORUS]

[Kool G Rap]

Knock back the hammer smell the
Pop that cantelope
For the venom in my python spit
It ain't no antidote
Jackpot from crack blocks
I was a man of dope
Snapshots to get your camera broke
You hoes used to plan a gross
With the hands toast
Close and stand opposed
Rubber bands she knows
Grams of the coke
Razor blade tuck the side the line
The banter of the coke
Watching niggas die with my hand on their doe

Singing with the bass
And wash up the ?land? when they float
Choking on your own words
Should have watched the ground when u spoke
One last final approach
Make your whole family ghost
Bust bottles of cham and and we toast
Till your photo stamped in the post
Sex gland cut off jammed in ur throat
Man are u gross
Bitch hanging from the lamppost
We shoot from up close
Blow canners the most
Catch an overdose
Nigga we own the coast

[G Dep (sung)]

I am
(a ghetto nigga) [X2]
