Don't you let the heat out of oven lord
It takes a while to build the fire
Don't let emm cool ya down
Don't let emm cool ya down

Cause there's some hot cookin' that's goin' on tonight
And the temperature is rising just right
All I got to do is keep this fire burning bright
I think I might

Cause If you put the fuel into the fire
And you start a chain reaction
Which is burning me, tos and turnin' me through the
Night
My temperature is rising fast, the feeling strong I
Can't mask
It's time for you to melt into desire

Cause there's some hot cookin' that's goin on tonight
And the temperature is rising just right
All I got to do is keep this fire burning bright
And I think I might

My momma always said don't play with fire
Don't you go and burn this whole house down
Cause I'm about to strike this match, put paper on the
Fire
So you better run and call some one to come

My fevers pitching
And I'm not so sure just what I'm takin' bout
I put my foot into my mouth I don't know what I'm
Saying
But now is not the time for words
So forget all those things you heard
It's time for you to melt into the fire

Cause there's some hot cookin' that's goin' on tonight
And the temperature is rising just right
All I got to do is keep this fire burning bright
And I think I might

Yes I think I might
Ooh I think I might
