They say that what does not kill you  
Only makes you stronger  
Well, maybe some of us  
Are just too sick and tired

Of being so damn strong  
And I can't reach for a reason  
To look in your eyes  
Like it doesn't matter at all

Falling down, crying out  
And I'll remember, and I'll remember

Spinning around in circles  
Just anticipating  
What the next stranger  
Is going to do to me

Falling down, crying out  
And I'll remember, and I'll remember

And I'll remember  
That the thing you did to me  
Lying on your kitchen floor  
Burning with hate

I wanna rip your hands off  
I wanna rip your tongue out  
For every time that I have cried  
Every time you have lied

Pushed down  
Laughing in my face  
Pain I've never felt  
Hate I've never screamed

And I can't still remember  
That fucking look in your eyes  
Screaming at me  
It doesn't matter at all

And now eyes will always lie

And now eyes will always lie  
And now eyes will always lie  
And now eyes will always lie
