

Boy Sets Fire "Channel"

Visit "[Channel](#)" on MotoLyrics.com

In demonstration our failures all aside We can burn this whole fucking system down And drive the bastards out Spit in the cynic's eye Has passion all run dry Expression of anger Testify... fight... Frustration as a catalyst Our lifesblood and identity Channel anger into a righteous act Deconstruction of the ruling class The past is dead pressing forward To what we can become Incarnation of true revolution The foundations have become our own Channel rage Channel anger Channel hate Into change By our hands.
