

Boy Sets Fire "Cringe"

Visit "[Cringe](#)" on MotoLyrics.com

My eyes have burned

With a fire that I could not prevent
It burned their nation's children

And crushed their patriot

Dead the hate we sent them so many years ago
Returned to haunt them

Leads us against the foe

With out fire
Their land

Our fire
Their wounds

My hands are cold with your blood

Torn to shreds with our kill toys

Sit back and watch the fun
Rated, screened, censored, sedated
Spoon-fed their noxious lies

So many times we've watched silently
