Discontent in this life as is  
Our mechanisms deviate  
Rust derided inspires change  
And leaves behind exhausted dreams, ignition  
engaged

So save your wishes for the sky  
Diluted and disguised, as a perfect fuel that won't  
ignite  
But hope will heal us all  
Set to action our forward thought

To allocate and stabilize  
The truth for so long can only hide  
In shadows of our own design, amend and revise  
A wish will leave you empty handed  
(Hope will provide)

Shun your responsibilities  
(And lead an empty life)  
A dream alone will bear no seed  
(Hope is alive)  
And wishes will leave you dead and buried  
Lost and forgotten with your lives
