Failed coercion
Leads to intrusion
And the blood forever runs
In her head
Into her hands
Between her legs
Where his mind lies

Power drives him in
To murder innocence
On the rack of his devices
Vices and designs
She will never scrub the stains
From her arms
From her neck
From her legs
Dirt will remain
As a reminder
Of his hateful face
Reach in
Rip apart the inner fibers
Of her soul
Boy you'll never know how it feels
To fear the shame
Feel free to walk down
Any dark street without fear
Without shame no one is
Going to touch you
And you don't need protection
She shouldn't need protection!

And you can sit there
With that stupid smile on your face
And try to convince me that you care
Defined by your power
Defined by her body
The innocence she feels
Everybody else contains
It's lost it's gone
But I guess it doesn't matter anyway
Reach in
Rip apart the inner fibers

Of her soul
And you can sit there
With that stupid smile on your face
And try to convince me that you care
Defined by your power

Defined redefined fucked tortured and discarded

And if he ever cares
Maybe he will feel ashamed
For everything he's stolen
For all the trust she gave
Possessed and broken
She cries but it's not our problem
Pull down your goddamn blinds

He will never think he's wrong
She will never feel quite right

You will never think he's wrong
You will never think you're wrong
She will never feel quite right
