From the world outside you're hiding your face
But I can see you shine I can see you shine
You think your life has all but been erased

The hands of time
They keep turning
And it's more than you can take
But don't forget, you're still learning
And one day you'll find your place
When you're ready...

When you walk by the angels sigh again
I can see you shine I can see you shine
While the others may not notice anything
But I can see you shine I can see you shine

The hands of time
They keep turning
And it's more than I can take
You caused a spark, now it keeps burning
Even through my darkest days
I'm ready...

I want to love you for a little while
Or as long as you like
Just a moment in your company
Would that be alright?
I can see you've had a bad day
From the look in your eyes
But baby, so have I
But there's no need to hide

Ooohhh ohhh ohhh
Oooo ohhhoohhh
I can see you shine I can see you shine
I can see you shine I can see you shine
Come with me now...
Come with me...

In the morning sun's together we will rise
I can see you shine I can see you shine
