Verse One:

We can run away  
To a far away place  
Just me and you together  
It's like me and you and I forever

I can buy you things  
Take you where you wanna go,  
80 days around the world,  
around the world,  
around the world,

Just hop into my car  
gettin slizzerd at the bar,  
Did we forget where we parked?,  
We're like outer space and mars,

Just hop into my car  
gettin slizzerd at the bar,  
Did we forget where we parked?,  
We're like outer space and mars,

Chorus:

I just wanna be with you  
Tonight  
I don't wanna be alone  
Tonight  
I just wanna be with you  
Tonight  
I don't wanna be alone  
Tonight

I just wanna be be be x8

Verse Two:

It's you and I tonight  
And I'm ready for the fight  
You made a heart with your hands  
you said you like the way I dance

We're spinning all around  
holding hands we hit the ground

I'm looking your eyes  
I'll never say good bye

Like a picture in your scrap book,  
We make a memory  
I hope that you remember me  
I'm right here.

I'm wearing that t shirt  
that you like,  
I'm wearing that t shirt  
that you like,

Chorus:  
I just wanna be with you  
Tonight  
I don't wanna be alone  
Tonight  
I just wanna be with you  
Tonight  
I don't wanna be alone  
Tonight

I just wanna be be be x8

Bridge of Oh's.

I just wanna be be be x8

Chorus:  
I just wanna be with you  
Tonight  
I don't wanna be alone  
Tonight  
I just wanna be with you  
Tonight  
I don't wanna be alone  
Tonight x2
