Carlito made a trip to a horrible planet
When he came back well
He let em have it
A big rhyme sticking like a piece of bone
From a chicken
The kind you suck with your mittens on
Cause it's cold
And that s all he knows
How to do is rock and make heads roll
He do it to you
He do it to me
He do it to the world like a color TV
Chorus:
Bad Man
Coming back down from the days of old
Bad Man
Swinging the microphone(2X)
Kiss the early morning
The early light
And watch your better day become the night
Coming after you like a bunch of peppers
Split down the middle like
Dirty records
So love the leppers eat the peppers raw
Suck the seeds in let your body fall
Look for the maker before the maker sees you grown
Wings
Let me tell you about them dirty things
A piece of coal is a diamond ring
Your soul is torn but your bird can sing
Not every pretty hero needs a Ho chi min
(Chorus)
A hundred years ago
Stealing all the halos
So your soul can know
You made this rock and roll
Thrill me like you used to(2x)
