Girl now more than ever

i'm just sitting home and think about your love smile

and i don't know what to do right now

cause i miss you baby

i want you back here you can't see that

Remember the time when i saw you special girl

you will never get out my mind

deep in my heart i can feel the love so strong

you will always be the one i need

*I have never believed that i found someone

a girl like you is the only one

i can never ever let you go

**Let me show you the way how to fall in love

let me show you how it goes

take my hand and go with me

to the place you wanna be

Let me show you the way how to fall in love

let me show you how it goes

see the starlight in the night

and the feel it's go so right..oh right

Now i believe (i believe..) that my dream will come in

true

i just gonna keep on holding you

day after day...(oh why..)

i just think about you girl

from the first time you stepped into my life..

Repeat * and **
