If you free your state of mind

Some might say it's strange but the bullets worth a bite

Ooh waiting, waiting baby

Ooh waiting, waiting baby

And I, I don't wanna go to bed now

I wanna be indiscreet

I don't wanna go to bed now, bed now not now no

And I, I dont wanna have to beg now

It's selling my soul too cheap

I don't wanna go to bed now bed now not now no

I feel it in my feet, and I feel it in my bones

My heels dug in so deep need a truck to drag me home

I know you feel it too through the faces in the crowd

It's only me and you and some good stuff going down

Ooh waiting, waiting baby

Ooh waiting, waiting baby

You look good, look good your good looking yeah

You look good,good,good your good looking yeah

You look good, look good your good looking yeah

You look good,good,good your good looking yeah

And I, I don't wanna go to bed now

I wanna be indiscreet

I don't wanna go to bed now, bed now not now no

And I, I dont wanna have to beg now

It's selling my soul too cheap

I don't wanna go to bed now bed now not now no

You look good, look good your good looking yeah

You look good,good,good your good looking yeah

You look good, look good your good looking yeah

You look good,good,good your good looking yeah

You look good, look good your good looking yeah

You look good,good,good your good looking yeah

You look good, look good your good looking yeah

You look good,good,good your good looking yeah
