[chorus]

Let me know, you're in over your head, let me know

If you don't I just might lose control

So come on, make a choice, let me know

It takes some time to know exactly what you're looking
for

And when you find the right connection then you'll
know for sure

What is there to hide?

I just gotta know what's on your mind

[chorus]

Don't be shy, you're just no good at holding out on
me

Eye to eye, no need for promises or guarantees

What is there to hide?

Don't you know that I'll be on your side

[chorus x2]

Ooohh oooh

Let me know

Won't you let me

Let me know

Won't you let me

[chorus x2]

So come on baby just let me know
