Stop believing, I  
I got a feeling, you  
You wanna meet me  
Disrupt to see me, oh  
And I don't know what's wrong with me  
It's just the same catastrophe

It's such a sad sad world  
And I'm a bad bad girl  
It's such a mad mad world  
And I'm the last blind girl

Hmm, sometimes I get a little bit tired of this  
Hmm, sometimes I get a little bit tired of this

Sweet melody, I hear your whisper in my sleep so  
tenderly  
Sweet memory, don't waste your time just tryna be a  
friend to me

Oh fire burning high  
My world is turning cold  
Colder than (?)  
This truth that I've been sold  
And I don't know what's wrong with me  
It's just the same catastrophe

It's such a sad sad world  
And I'm a bad bad girl  
It's such a mad mad world  
And I'm the last blind girl

Hmm, sometimes I get a little bit tired of this  
Hmm, sometimes I get a little bit tired of this

Sweet melody, I hear your whisper in my sleep so  
tenderly  
Sweet memory, don't waste your time just tryna a  
friend to me
