Right at this moment
You're feeling insecure
I don't want to hurt you baby
You've heard it all before

Your eyes reach out and say
Don't want to be hurt again
Give up yourself to me
I'll ease away your fears

You're afraid to test new waters
With me you won't feel cold
(You won't feel cold)
I'm here to comfort you
I'm here to see you through
I'm here for you to hold

Because I'm going nowhere
If you need someone to hold you
I'll be right there

Oh no, I'm going nowhere
If you need someone to hold you
I'll be right there

Love and affection I can tell
That's what you need
Tender loving care
You'll get those things from me

I've got so much to give you
I'll give it all to you
No need to worry babe
I'll be here for you

I want to cherish you
(Just want to cherish you)
And love you a lifetime
(Love you for a lifetime)
What I need to know is
(Know is)
Will you be mine?

No need to feel so lonely
'Cause darkness turns to light
Just know I'll be right here
To hold you tight

Love and affection I can tell
That's what you need
Tender loving care
You'll get those things from me
