### "So Glad"

I can never be sure  
Why you make me feel the way I do  
It's the danger excitement  
I feel whenever I'm with you

With you I always feel so good  
Some people say that you've brought me to life  
All I know is what I feel inside  
When I'm with you I'm on a natural high

I'm so glad to be with you  
I wanna share in everything you do  
So glad to be with you  
I wanna share in everything you do  
Share it with me, baby

You understand all my needs  
You're always there for me  
For you I'd do anything  
That you would ask of me

Together we are a team  
Side by side I hope that we'll always be  
Good for each other we both agree  
That's why I'm so glad to be

I'm so glad to be with you  
I wanna share in everything you do  
So glad to be with you  
I wanna share in everything you do  
Share it with me, baby

I'm so glad to be with you  
I wanna share in everything you do  
So glad to be with you  
I wanna share in everything you do  
Share it with me, baby

I wanna be by your side  
Wanna be with you tonight

You're all I ever wanted  
Yes, you're all I ever wanted, baby

I wanna be by your side  
Wanna be with you tonight  
You're all I ever wanted  
Yes, you're all I ever wanted, baby

I'm so glad to be with you  
I wanna share in everything you do  
So glad to be with you  
I wanna share in everything you do  
Share it with me, baby

I'm so glad to be with you  
I wanna share in everything you do  
So glad to be with you  
I wanna share in everything you do  
Share it with me, baby

I'm so glad to be with you  
I wanna share in everything you do  
So glad to be with you  
I wanna share in everything you do  
Share it with me, baby
