Do you have a vision?  
Do you have a goal?  
I'm watching you shrugging your shoulders  
Telling me you just don't know

Do you get emotional?  
Is there something you're passionate about?  
I can tell that you're still searching  
Still trying to work it all out

It takes time, take your time  
Mm, mmm, you will know when it feels right

Where you gonna be in ten years time?  
Will you be happy  
With the way you've been living your life?  
Will you be all right?

When you're looking back to now on the years gone by  
Will there be something that you say  
That you should have done right in your life?

What would you fight for?  
For what do you stand?  
And how would you go about it?  
And do you have a master plan?

What are you, demons?  
How much for your soul?  
Have you found religion  
And gone down that road?

I guess, we all need something to believe  
Oh, ooh, oh, times haven't changed, that's how it's got  
to be

Where you gonna be in ten years time?  
Will you be happy  
With the way you've been living your life?  
Will you be all right? Yeah, yeah

When you're looking back to now on the years gone by

Will there be something that you say  
That you should have done right?  
We're talking about your life

Are you a dreamer?  
Tell me all your dreams  
Can you say honestly  
What you want to be?

What would you do  
When your back's against the wall?  
Would you stand on your two feet?  
Would you admit defeat?

These are the times we need to be strong  
Don't you know? Don't you know that it's hard?  
But we learn, we find a way  
We got to find away to carry on

Where you gonna be in ten years time?  
Will you be happy  
With the way you've been living your life?  
Will you be all right? Yeah, yeah

And when you're looking back to now on the years gone  
by  
Will there be something that you say  
That you should have done right?  
We're talking about your life, your life

Where you gonna be in ten years time?  
Will you be happy  
With the way you've been living your life?  
Will you be all right? Yeah, yeah

And when you're looking back to now on the years gone  
by  
Will there be something that you say  
That you should have done right?  
We're talking about your life, your life

Where you gonna be in ten years time?  
(Ten years time)  
Will you be all right?  
(Ten years time)  
Tell me will you get it right?  
Get it right? Yeah

Where you gonna to be in ten years time?  
(Ten years time)  
Will you be happy with the way

That you're living your life?  
(Ten years time)  
Do you feel it'll be all right?  
Be all right?

Where you gonna be in ten years time?  
(Ten years time)  
Will you be all right?  
(Ten years time)  
Tell me will you get it right?  
Get it right?  
Yeah
