So many times... so many times...  
So many times...

You go out every night  
tryin' to find a perfect love  
you've lost the faith in yourself  
you've found another loneliness

The world is full of magic, can't you see  
I'm your guardian angel, trust in me  
So many times I've been watching you  
and now I fell in love with you!

So many times I'm watching you  
and now I fell in love with you  
So many times... so many times...

So many times I'm watching you  
and now I fell in love with you  
So many times... so many times...  
And I fell in love with you  
So many times, I'm watchin' you  
And I fell in love with you (x4)

Do your heart, feel so lonely  
think about your sweetest dream  
close your eyes, and follow me  
and I'll take you to my destiny

I'm thinking about you, all the time  
when I keep my love to you, that's the crime  
so many times I've been watching you  
and now I fell in love with you!

So many times I'm watching you  
and now I fell in love with you  
So many times... so many times... (x7)

So many times, I'm watchin' you  
And I fell in love with you (x12)
