Though all space and time  
you've been on my mind  
like a sweet red wine

you breathe

like an ocean rain  
you float me away  
but i don't complain

you see

(chorus)  
rain dancing  
underneath the summer rain  
rain dancing  
from behind the window pane

rain dancing  
would you please come play with me  
come and dance with me

through all space and time  
you've been on my mind  
like a sweet red wine

you flow  
like an ocean rain  
you float me away  
and i'd like to let you know

(chorus)
