I descended in search  
Of a longing  
And eternal awaiting  
Warned of my  
Initiating end  
As it painted me  
With purifying  
Agony  
Her frozen breath  
Foretells the coming  
Of my original death  
No sin antes llevarme  
Por su camino rojo sangrante  
Y con sus venas ahora abiertas  
Me va arrastrando hasta sus brazos  
Allowing my thirst to thrive (bis)  
Awake in black  
My wings now closed  
My flight is abandoned  
Awake in black  
If these wounds  
Don't penetrate  
Awake in black  
I could fly  
Once more  
I see my sunrise is black
