Oh, Claudia, don't take it away, girl, if you leave me
this way
I'm gonna search night and day to find your love
Oh Claudia, don't take it this way
What kind of bad mistake is worth our saying goodbye?

The last time we vowed we would not part, my love
And so take heart, my love, don't let it end this way
Remember the good things that we shared, my dear
And so take care, my dear, don't throw our love away

Oh Claudia, girl don't leave it this way, it's gonna take
both me and you
But we can see this thing through and save our love
Oh Claudia, don't take it away, girl can't you see it's all
wrong?
Till you come back where you belong, I need you babe

The last time we vowed we would not part, my love
And so take heart ,my love don't let it end this way
Remember the good things that we share, my dear
And so take care, my dear don't throw our love away

This last thing I've tried to keep inside myself
I never told you so but girl you ought to know I'm your
man

Don't take it away, girl if you leave me this way
I'm gonna search night and day till I find your love
Hey Claudia, don't take it away
