Goodnight Louise
It's lights out for me
It was hot for a minute, we were right down there in it
But hey Lou, c'est la vie

Sweet romance
One last dance
I should be moving on, but they're playing our song
I might, Louise, I just might

What's in a moon, one lonely night
What's in a heart that is true
Some would say that means everything
Don't mean a thing without you

So flies love
And stars up above
You were first but not the last, you're the queen of my
past
Goodnight Louise, goodnight

You were first but not the last, you're the queen of my
past
Goodnight Louise, goodnight
Goodnight
