Listen to me lady so it's understood  
This runnin' round life ain't doin' me no good  
I get tired, get so tired of payin' dues  
But its seems there ain't no way around it  
No end to runnin' blue

But I like to have my fun, like to run around  
And I ain't no stranger in nobody's town  
But I get tired, get so tired of changin' views  
And the road don't get no shorter  
Runnin' round and runnin' blue

But this runnin' round life might seem nice and easy  
But when your blowin' with the wind  
Sometime it get real breezy  
A man gets tired, I feel like I was born to lose  
And there ain't no way around it  
No way round runnin' blue

Got no holes in my pocket, no holes in my soles  
But I don't know if I'm leaving Detroit  
Or a-comin' in to Baton Rouge  
I get so tired, so tired of changin' views  
And there ain't no way around it  
No way around runnin' blue

Left my billfold at the airport, my suitcase on a train  
Now I can't find my umbrella, and it sure looks like rain  
I get tired, so tired of playin' to lose  
And the road don't get no shorter  
When you've got the runnin' blue

Now my life ain't no good life, but it's my life too  
And once you're bound to this highway  
Hey, ain't nothing you can do  
Say I'm tired, whoa, gettin' tired of payin' dues  
And there ain't no way around it  
No way round the runnin' blue
