Why'd you come here  
All alone  
You should go now  
(Go right back home)  
Oh my dear it's begun  
But there are some things  
(Better left undone)  
Like me here with you  
Baby I make mistakes too  
Monday's romance  
Is Tuesday's sad affair

For a moment  
Through the crowd  
I could hear your heart  
(Talking right out loud)  
Whispering to me like a child  
So impatient  
(Latin lover style)  
Your heart it's a start  
Way beyond a fast affair  
It's the moon  
And garland in your hair

(Whatcha gonna tell your man)  
Oh whatcha gonna tell your man  
(How you gonna make him understand)  
Oh understand  
What'd you have to go and do it for  
Make me want you like I do

(Whatcha gonna tell your man)  
Hey whatcha gonna tell your man  
(How you gonna make him understand)  
Understand baby  
What'd you have to go and do it for

Make me want you like I do

Are you crazy  
Out of your mind

Jump the fence and  
(Leave it all behind)  
Daddy's baby Momma's friend  
Buy that judge off  
(Start all new again)  
Matter of factly  
Yeah I'll bet he  
Never saw you quite this way  
Safe to say  
Throw the key away

(Whatcha gonna tell your man)  
Whatcha gonna tell your man  
(How you gonna make him understand)  
Understand  
Whatcha you have to go and do it for  
Make me want you like I do  
Baby

(Whatcha gonna tell your man)  
Oh whatcha gonna tell your man  
(How you gonna make him understand)  
Understand  
Whatcha have to go and do it for  
Make me want you like I do  
Baby

Oh whatcha you gonna tell your man  
Whatcha you have to go and do it for  
Make me... whatcha whatcha...
