Riding backseats on night highways  
Dark spaces white lights through the window  
I'm moving too fast through my life  
While the moon remains constant in the sky  
The night is holding it's breath  
Inside in silence I'm dead,  
But if I make it until tomorrow  
I know that my fear will be gone  
And so I'm waiting for the morning to come  
Come, come, come into my life  
Come, come, stay with me  
Nobody loves me, nobody loves me enough  
Enough to save me, oh no  
Nobody loves me, nobody loves me enough  
Enough to save me, oh no  
I'm breathing the silence tonight  
Won't I ever arrive where I am going?  
I'm saying your name inside  
While the moon is following my ride  
Only now, I can let this night go by  
The black earth breaks the day  
I don't want my heart to dry  
It says come into my life  
It says  
Come, come, come into my life  
Come, come, stay with me  
Nobody loves me, nobody loves me enough  
Enough to save me, oh no  
Nobody loves me, nobody loves me enough  
Enough to save me, oh no  
If I say I'll forget you, I'm lying  
Looking for you I'm still waiting  
Whatever I do with my life  
The moon remains constant in the sky  
Just today I knew what was right  
But on this silent day  
I can hear my voice inside  
It says come into my life  
It says  
Come, come, come into my life  
Come, come, stay with me  
Nobody loves me, nobody loves me enough

Enough to save me, oh no  
Nobody loves me, nobody loves me enough  
Enough to save me, oh no
