"NEVER CALLED YOU CRAZY"

See me in confusion - wonder why?
Cause you've outdone yourself this time
Talking smack is gonna pack ya bag
Cause only you will suffer
That's a fact a fact a fact....

We'll I never called you crazy
But I've seen you act the fool
Any questions you are raising
We all see the truth

Sunset on your mind is fading down
You find yourself in exile now
Splitting over hairs will get you nowhere
You'll be lucky just to keep your share
Take care take care take care....

We'll I never called you crazy
But I've seen you act the fool
Any questions you are raising
We all see the truth

We'll I never called you crazy
But I've seen you act the fool
Any questions you are raising
We all see the truth
