Bug eye in the water  
In the water in her body  
Bug eye in the water  
In the water in her body (in my body)  
Safe, safe, safe within her womb  
(Safe, safe, safe within my womb)

Bug eye in the water  
In the water in her body  
Bug eye in the water  
In the water in her body (in my body)  
Safe, safe, safe within her womb  
Blissful, blissful, bliss within her womb

Everyone deserves a chance  
Even if it's only one  
Everyone deserves a shot at life

Beautiful, beautiful bug eye  
Such an innocent creature  
For such a small part of your part of your existence

Bug Eye  
New Life  
Bug Eye  
New Life

Beautiful, beautiful bug eye  
Such an innocent creature  
For such a small part of your part of your existence
