"Sex In The Underworld"

Show me your secret diamonds now in the darkness of
the night
We're lost somewhere in the deep of world where's no
sun and no monlight
Feel me deep, feel me free in your sanctuary of erotic
dreams and cries
Planet Earth's burned down but your eyes remind me
the rise of the morning sun

[Chorus:]

I feel your burning sweat, be mine
I hear your silent sighs
...Sex In The Underworld
We're filling us with new age love
We are burning in our sins...
... Sex In The Underworld !

Dark noise of mashines in the underworld bring us
background for our dreams
The touch of your lashes like of butterfly and your
fragile tears drops your
skin
I love you in fire and extasy, you bring me the pain, you
bring me delight
Nothing to see, only your body screams, fill me deep,
fill me with the rain
inside

[Chorus]
