Galadriel "Silence And Screams"

Visit "Silence And Screams" on MotoLyrics.com

Silence and screams are calling me to you again But no helps so strong to deliver you my friend

I fear your fear, I fear all your weakness You fade away like light of the stars now

Madness and greed, that painfull death you chosed for life

You try to live in dreams, to leave reality behind

Each time - the same, you loose your fight with pain There's always your face I see in my nightmares

I talk, I scream, obey leave you way now I fear your fear, obey leave your way now....
