"Ocean Blue"

Follow me in to the ocean blue
Follow me if you want the truth
I cannot, but I can talk to you
I say nothing, but still you understand

I hold my hand out to you
Don't be afraid, I come in peace
It may seem unusual to you
Leave all your cynicism behind you
Behind you, leave it behind you

Swim with me in the ocean deep
Be amazed by all the sights you'll see
Don't you worry, you'll still be able to breathe

It's another World down here, naturally...

I hold my hand out to you
Don't be afraid, I come in peace
It may seem unusual to you
Leave all your cynicism behind you
Behind you, leave it behind you

I hold my hand out to you
Don't be afraid, I come in peace
It may seem unusual to you
Leave all your cynicism behind you
Leave it behind you
Behind you
Leave it behind you
