Should have seen it in your eyes
I could never read those eyes
So lost in love was I
They'd always take me by surprise
You were dreaming of the southland
Ah, your love comes and goes
It's just like the weather babe
Only heaven really knows
Chorus:
Just like spring time in Alberta
Warm sunny days endless skies of blue
Then without a warning
Another winter storm comes raging through
And the mercury's fallin'
I'm left all alone
Just like spring time in Alberta
Chills me to the bone
I can see the storm clouds comin'
Lord they're dark across the sky
The same look that I've seen so many times
When I've looked into your eyes
So I'll turn up my old collar
Pull my hat way down low
Wind's getting colder now
Dropping down to near zero
chorus
Spring time in Alberta
Chills me to the bone
