I getting tired of all your broken promises I getting
Tired of all your fickle excuses

I sick to the back teeth of all your boring anecdotes
You know I?e heard them all a million times before

I don't think you realise what damage you have caused
We
Can't go on like this, we can't take any more

How long have we got to wait How long before you
Complete How long before you finish what you started
Tell me how much more time is this all going to take?
You have to listen and get on with this belated show

Termination, it's the only way Termination, it's the only
Answer

You don't seem to have any sense of urgency
Meanwhile
Our lives are put on hold as we wait to break free

You?e taking all our money and you're bleeding us dry
And still we have nothing to show for all our efforts

Were got to see some action, payback time is near How
Long before we can capture your attention, about time

We were out of here

How long have we got to wait How long before you
Complete How long before you finish what you started
Tell me how much more time is this all going to take?
You?e taken the piss and now it's time for some closure

Termination, it's the only way Termination, seems the
Only answer

Why can't you see the problems you have caused I
can?
Believe you feel no guilt or no remorse

How long have we got to wait How long before you
Complete How long before you finish what you started
Tell me how much more time is this all going to take?
You're told your jokes, you?e had your fun, now get it
Done!

Tell me how much more time is this all going to take
How long before you finish what you started Tell me
how
Much more time is this all going to take Now you?e told
Your jokes, you?e had your fun now get it done!

Tell me how much more time is this all going to take?
