How does it feel to be me?  
Sadness dulls everything that i see  
Watching my life waste away  
Tomorrow will be just like any other day and i can't wait

I want my life to improve  
Anxieties cripple my every move  
Nowhere to go so i'll stay  
Forgetting that time is running out for me

Tell me i'm not alone  
It's all i've ever known

? the finer side  
But i care what i'm trying to hide  
That's what it means to be me  
Nowhere to go when pain is all i ever see

Tell me i'm not alone  
It's all i've ever known  
Give me a better way  
To make my days pass away

For a ? too long  
String me along
