I was your light
To the [Incomprehensible]
Why do you cry today
Just because the sky is gray?

'Cause it's okay if everyday
Is not the same way
It's just another way
That everyday is not the same

How can you see the sky
When you close your eyes?
How can you run away
Just because the sky is gray?

'Cause it's okay if everyday
Is not the same way
It's just another way
That everyday is not the same

'Cause it's okay if everyday
Is not the same way
It's just another way
That everyday is not the same

'Cause it's okay if everyday
Is not the same way
It's just another way
That everyday is not the same
