"Knife Of Infinite Kills"

Shine as my wrath!

Knife of infinite kills

You belong to me

My hate is yours

Shine like no star ever signed

The grave of innocense

The ancient wrath

Of a soul thrown into the dark

Give me domination

In glory of blood and fire!

Give me strength by the Council of Chaos!

Spirits of the Ganzir Gate

Take this life to rise up high

So we may see earth fall

Deep into the pits of despair

Where life will merge in a black void eternal
