See the man  
see the head of silver grey  
see the lines crossed  
see the man  
see the chance is tossed away  
see the time lost time lost

Dan in the days gone down  
kept a bag and slept around  
and he used to clean his shoes  
with rubs of Margarine  
Dan in the days gone down  
kept a tune and sang around  
played the clubs and made enough  
to sing another day

those heart despairing days on the dole  
as any man from thirty nine will know  
and Dan the only man to keep his soul  
as any friend of Dan's will tell you so.

Dan in the days gone down  
kept a crease and held a seat  
underneath the mackintosh he  
almost washed away  
Dan in the days gone down  
left a note to save the world

instrumental 8 bars

See the man  
see the head of silver grey  
see the lines crossed  
see the man  
see the chance is tossed away  
see the time lost time lost  
Dan
