

## **Bracket "Cool Aide"**

Visit "[Cool Aide](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It's starting to get hot outside  
I think my feet are gonna fry  
I have to go but I sit down in the weeds  
It takes a lot to get me in

I need to stop for my cool aide now  
I want my friends to leave anyhow, mix a batch  
Just a little bit more will get me through the day  
The daylight's going away

All my friends drink from a can  
They don't know the cool aide, man  
I have to go but I'll sit down in the weeds  
It takes a lot to get me in

I need to stop for my cool aide now  
I want my friends to leave anyhow, mix a batch  
Just a little bit more will get me through the day  
The daylight's going away

Cherry-flavored, berry-flavored  
Tropical punch over ice  
I want my cherry-flavored  
Tropical punch over ice

I want my cherry-flavored  
Tropical punch over ice  
I want my cherry-flavored  
Tropical punch over ice

It's got no pulp, it's got no seeds  
My mom likes the added c

I need to stop for my cool aide now  
I want my friends to leave anyhow  
I need to stop for my cool aide now  
I want my friends to leave anyhow, mix a batch

Just a little bit more will get me through the day  
The daylight's going away
